Operating System Resource Types

This table lists resource types that are reserved for the Operating System's use only. These resource types consist entirely of uppercase letters or combinations of uppercase and lower-case letters and the number sign (#). Other resource types specific to the Operating System that consist entirely of lowercase letters or other characters are not included in the Table. This list is provided for your information; you should not use these resource types in your application.

Resource types reserved for the Operating System's use
